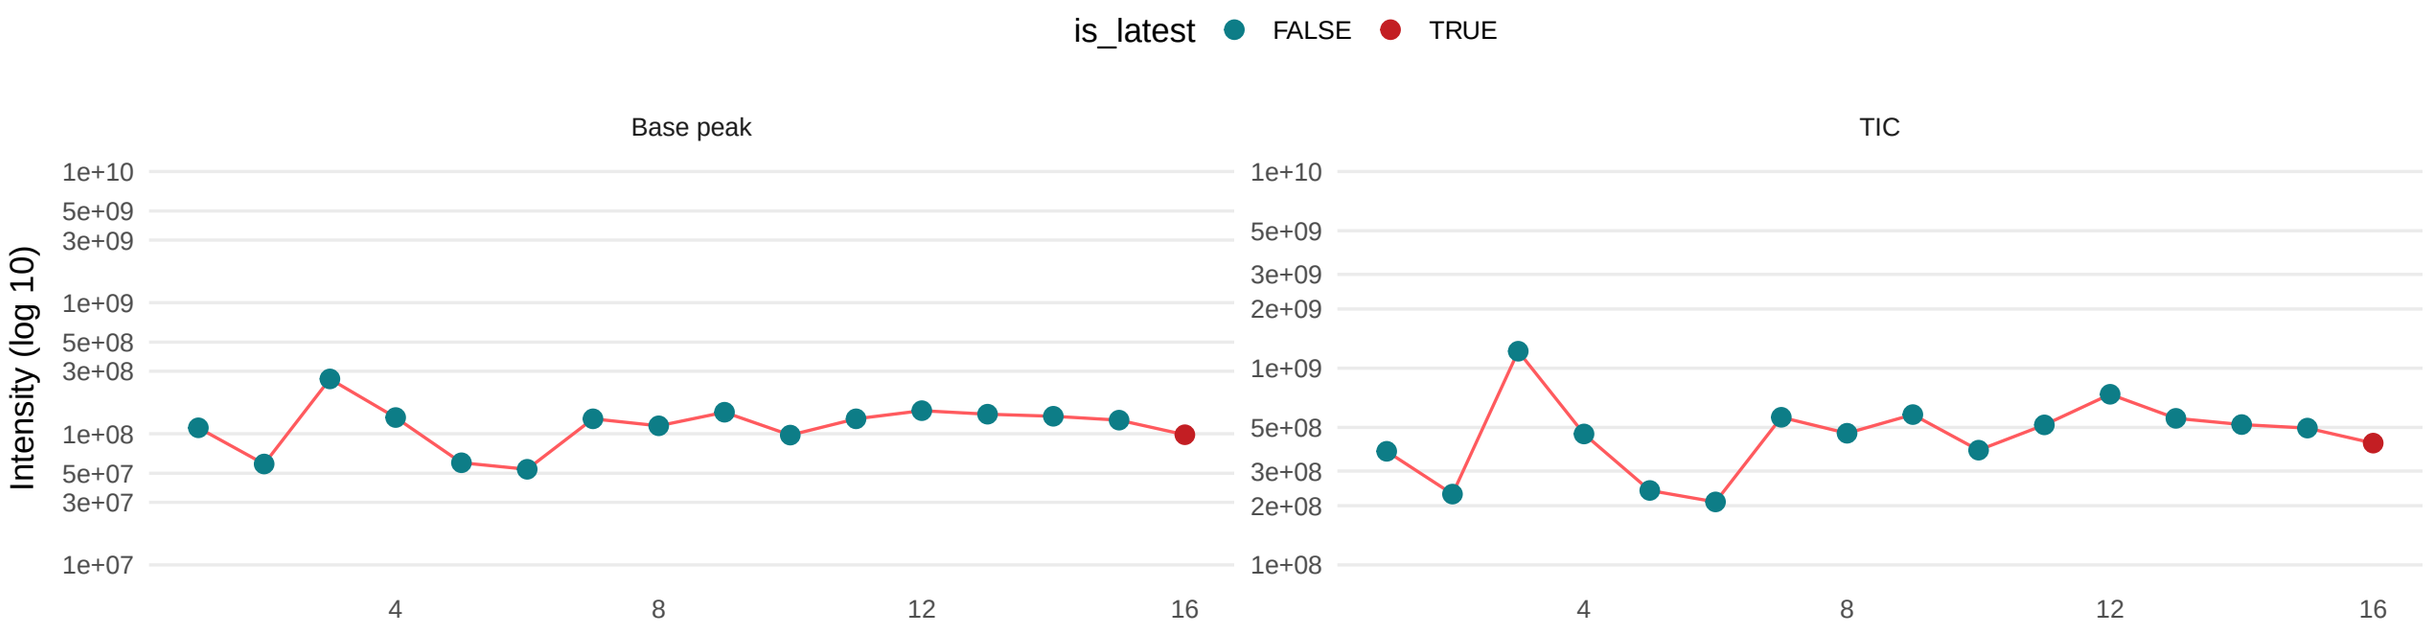
# Fusion QC Dashboard — HeLa Lysate110226

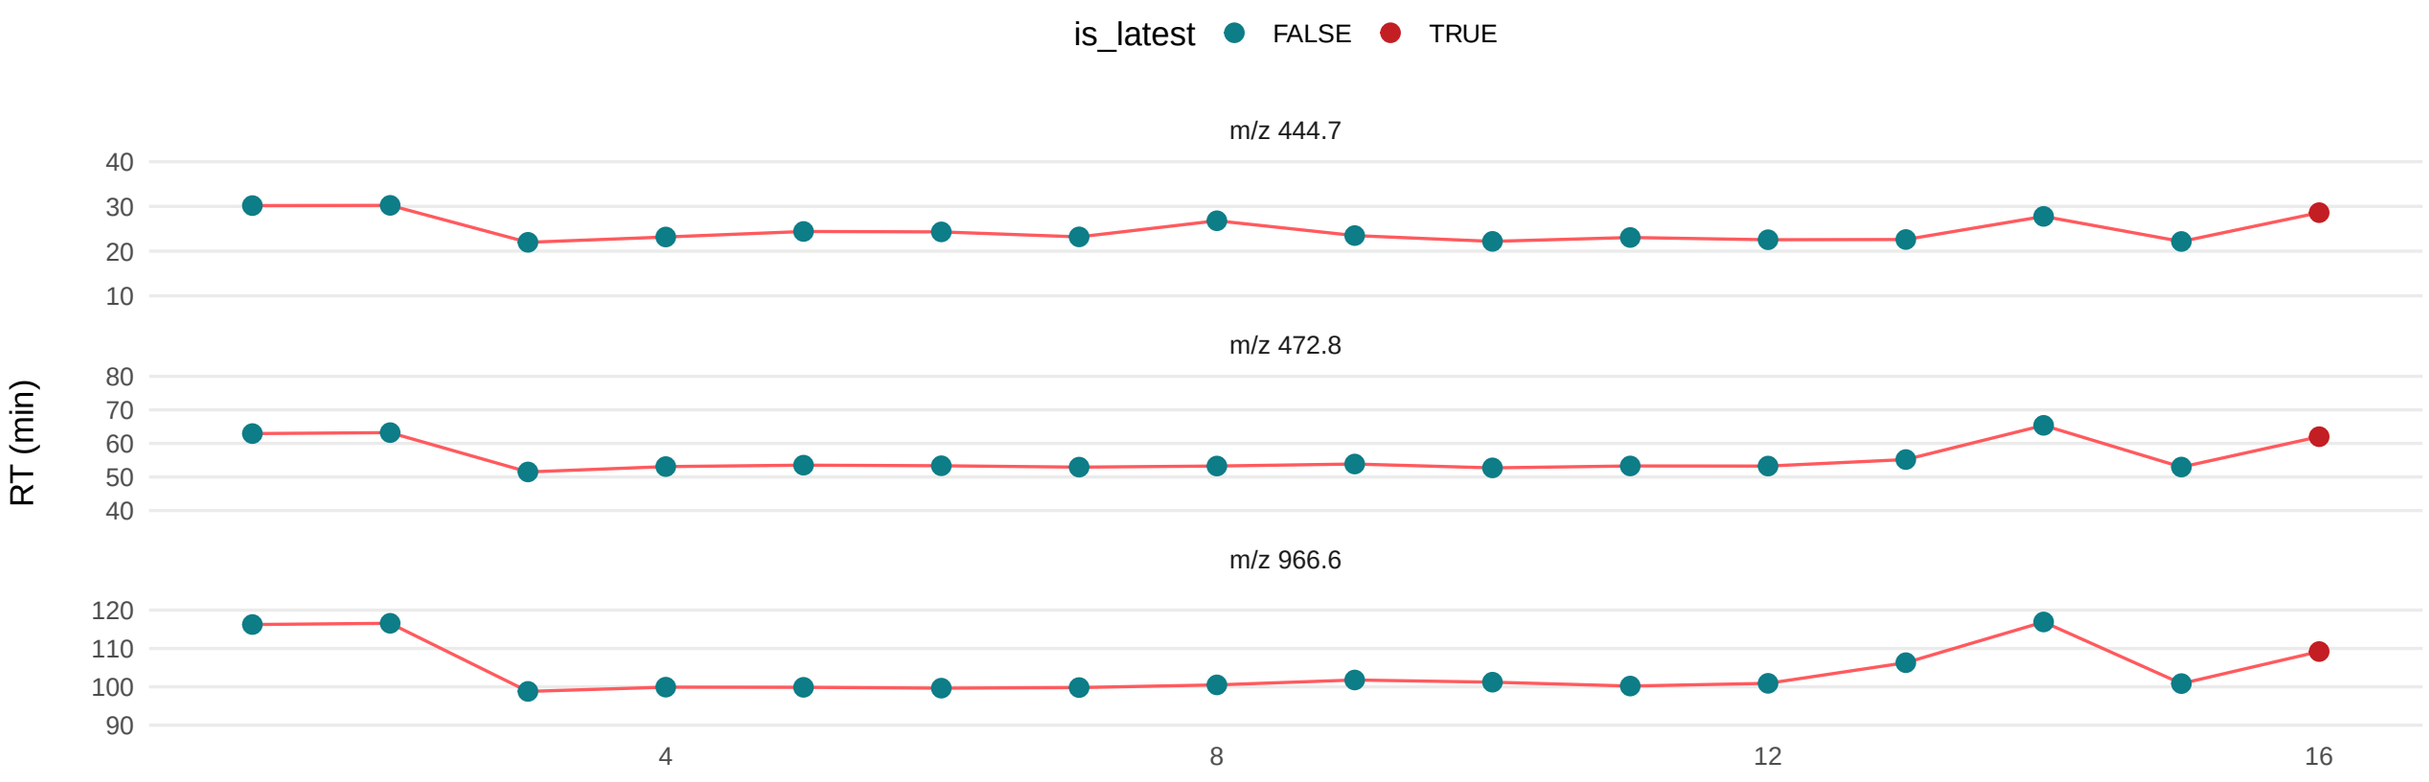
## Signal stability (log scale)

TIC, Base Peak Signal intensities



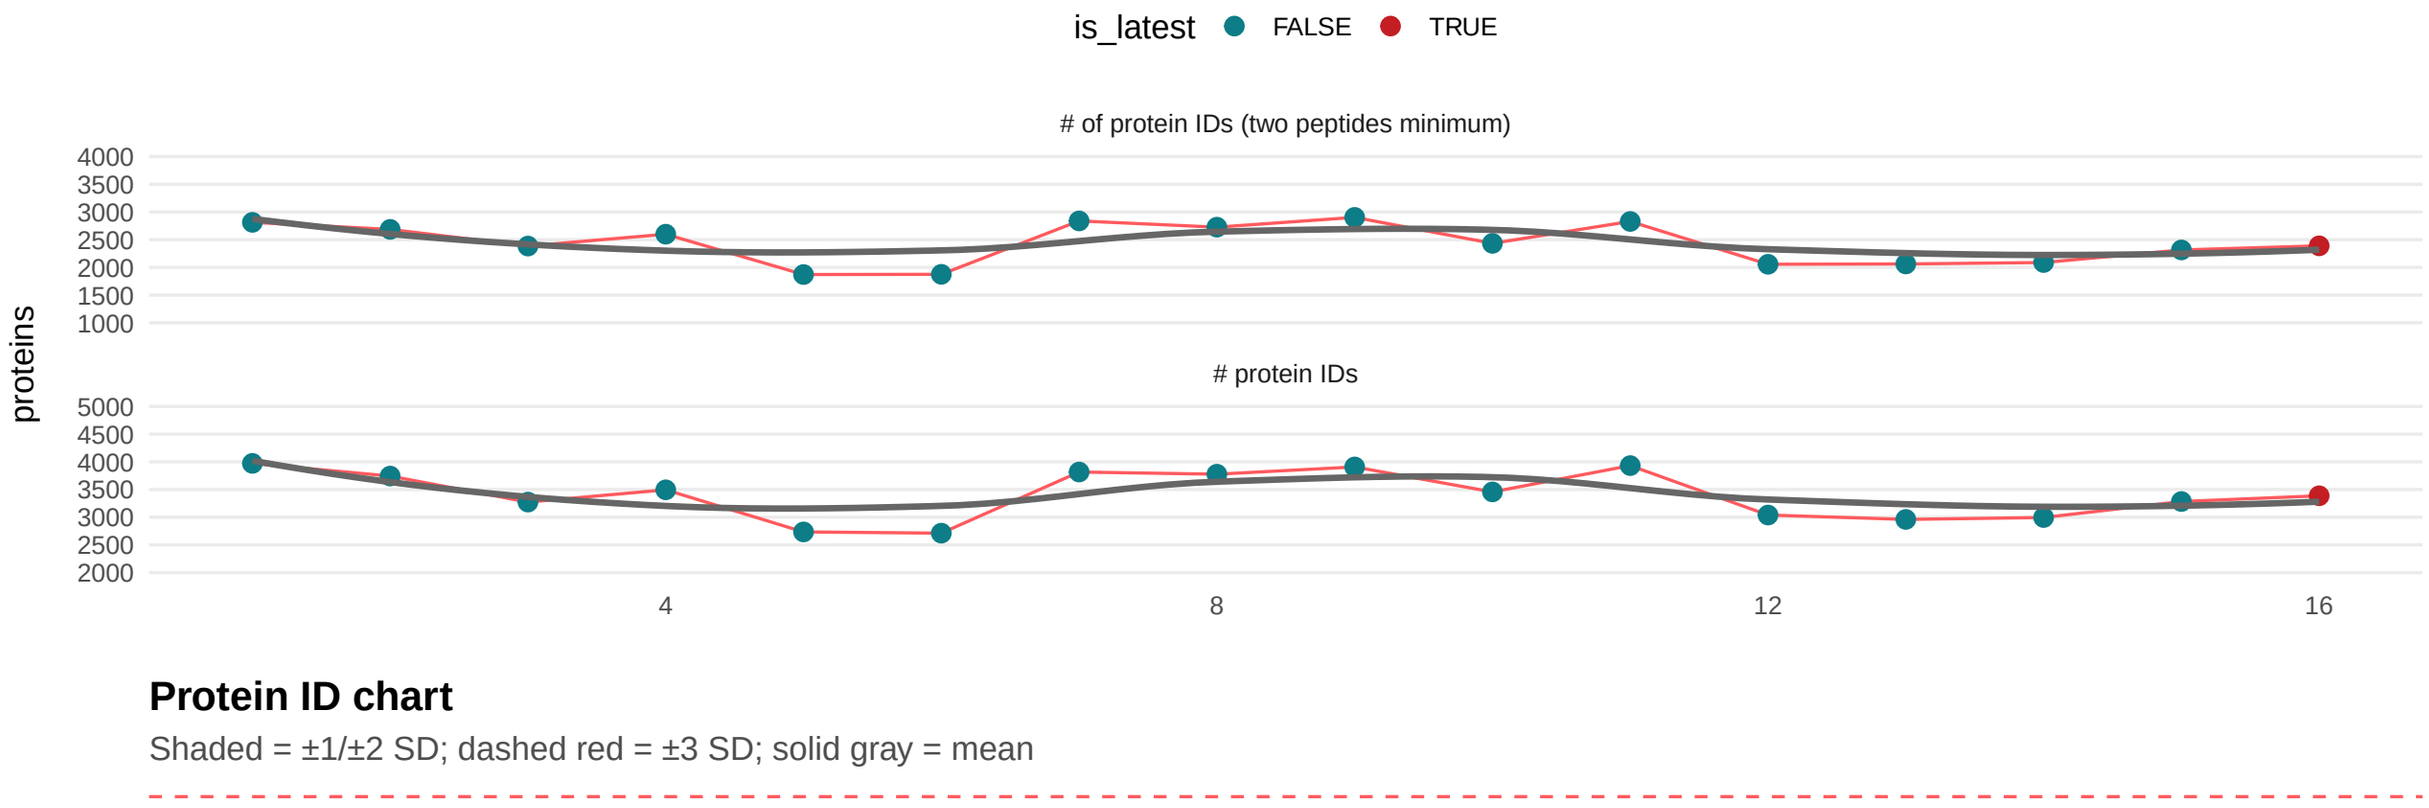
## Retention Time Stability

Per−ion RT drift across runs



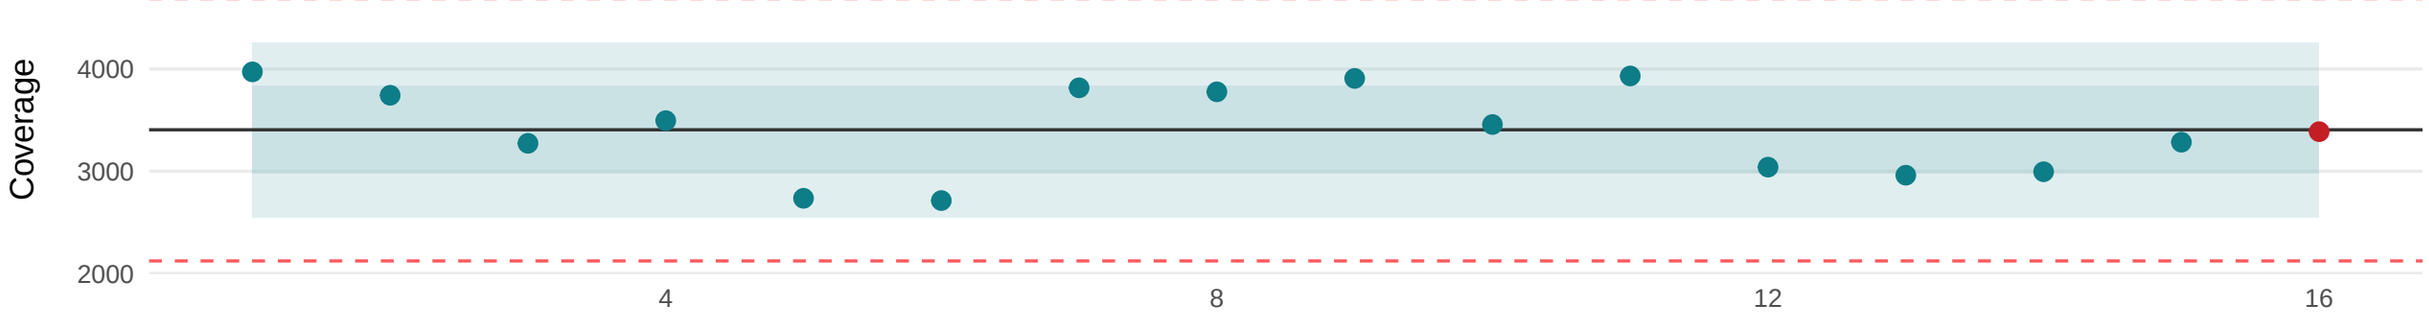
## Protein IDs over runs

Thin gray line = LOESS smooth (trend)



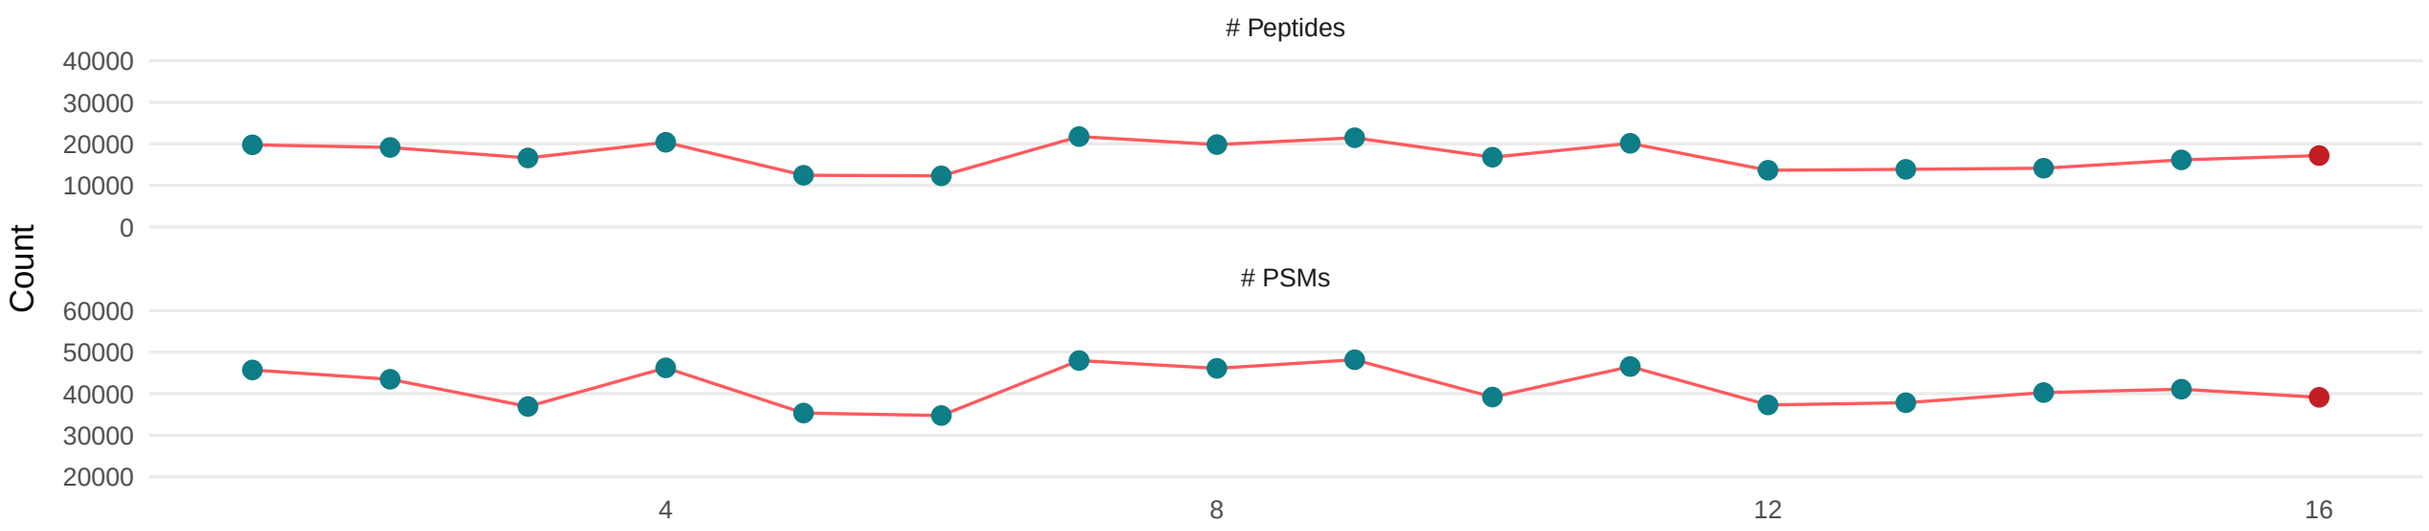
## Protein ID chart

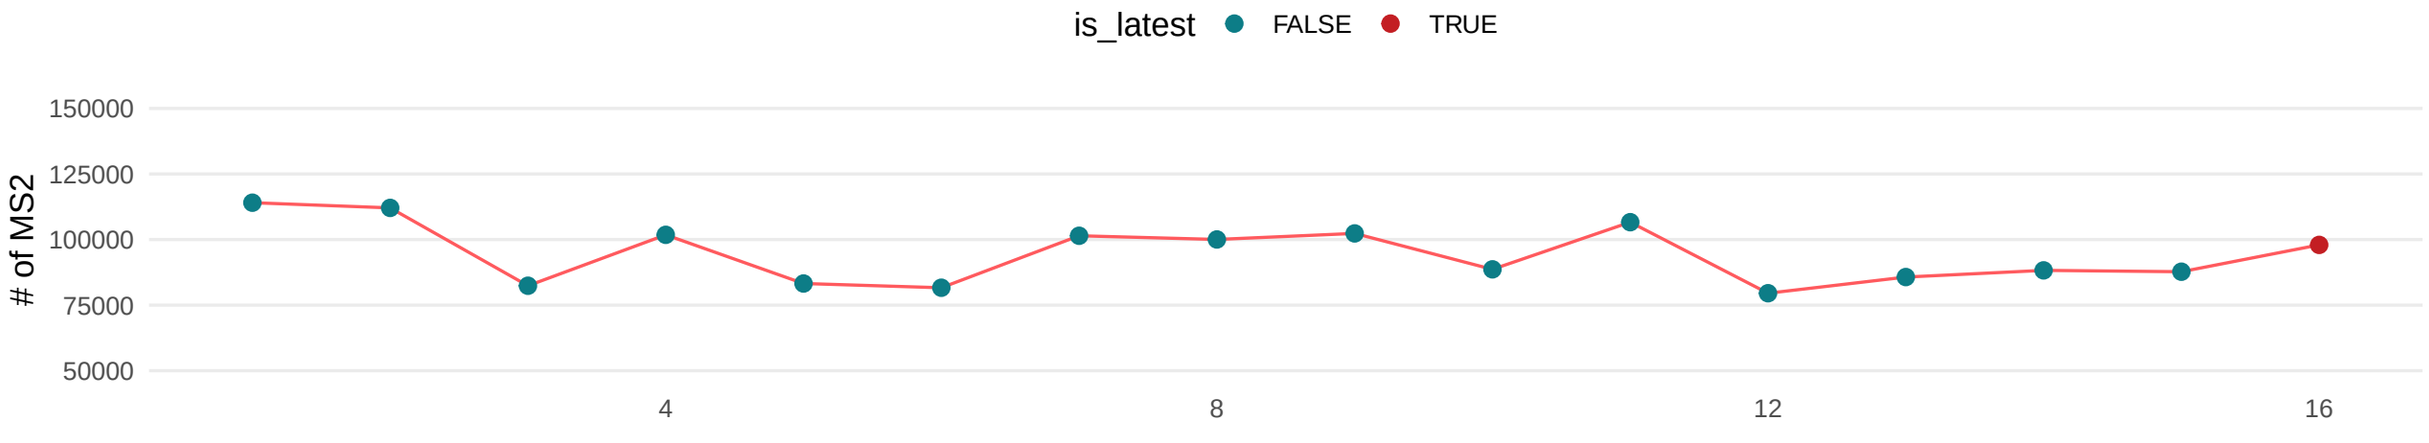
Shaded = ±1/±2 SD; dashed red = ±3 SD; solid gray = mean



## Identification depth

# of Peptides, # of PSMs





## # of MS2 Spectra over runs
